DETAILED ACTION

1. Applicant's election without traverse of Paper 14 in the reply filed on 10/20/03 is acknowledged.

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

With regard to claim(s) 1, line(s) 5 "for" is unclear as it fails to positively recite an irradiator. Questions of intent are raised. The examiner suggests replacing "for subjecting" to --that subjects--, or --configured and operable for--.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 1-8, 11-15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Claude et al. (FR 2 744 920) in view of Krooss, substantially as applied in paper 7.

6. Regarding the applicant's remarks of 7/1/03 in paper 8, the examiner offers the following response.

Claude et al. (FR 2 744 920) does disclose the need for dry conveyance operations. This doesn't preclude a wet cleaning step during a cleaning operation. This

is further facilitated by the fact that Claude et al. (FR 2 744 920) already employs a drying step in the cleaning operation. One would merely have to let the cleaning operation proceed longer.

With regard to Krooss, Figure(s) 5 discloses scraping the conveying surface.

Conclusion

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joseph A. Dillon, Jr. whose telephone number is (703)305-9728. The examiner can normally be reached on 8-5:30, every other Friday off.
